

M24 SINGLE AXIS MASTER SWITCH

The single-axis controller M24 is a rugged switching device according to IEC/EN 60947-5-1 for electro-hydraulic applications, and comes with standard operator handles. The M24 applications include mobile equipment, mining equipment, forestry, oil/gas, scissor lifts, and many other machine applications.

Mechanical life

6 million (operating cycles)

Permissible ambient temperature

Operation -40° C to +60° C

Storage -50° C to +80° C

Electronic output 0 - +/-10 Volt or 4-20 mA output characteristic linear power supply 12-30 Volt DC

Electronic PWM output 0 - 2000mA output characteristic linear power supply 12-30 Volt DC

Additional options: Center lock position with lift to unlock;

Can - Bus for most Original Equipment manufacturer's equipment
